

## Barford Residents Association

### Minerals Update - Post Cabinet Meeting

At the Cabinet meeting earlier today, 6 members of the community presented their comments to the Cabinet.

The result of the cabinet Meeting was that the planners were requested to compile a new Minerals Plan in accordance with the 2017, ten-year sales figures. This is the reduced figure of 6.5 million tonnes, down 2 million on the previous plan target.

The big difference this time is that the plan is to be presented to the Cabinet for approval PRIOR to public consultation.

We are feeling both encouraged by our professional and detailed accounts and optimistic of how we may be able to influence the progress.

We would like to thank the individual speakers and all the members of the community who came along to support the team.
