

MINERALS UPDATE -

What a great start!! Many thanks to the numerous individuals who have contributed so generously to the SAGAG community fund for opposing the Minerals Plan. Following the door to door appeal we are delighted to say that the fund has already reached just over £5000 which is great news and testament to a community supporting each other. We still have a long way to go but many thanks to all who have helped in lots of different ways to get this far.

A start has been made with professionals in preparation for the inspection and other local organisations are being contacted to help support the campaign.

Nominees for the position of our local County Councillor (of which there are 4) have been asked to provide a public statement of their views on the inclusion of sites 4 and 5 in the Minerals Plan and how they intend to represent their constituents in this matter. **These statements will be made public prior to election day, May 4th and will be available to read on the BRA website** as they are received.

We need to keep the profile high and the funds continuing to build. If you are intending to contribute please do so as soon as you can, as progress is very dependent on funds available.
