

Minerals Plan Update – September 2017

During the Publication consultation process of the Minerals Plan a large number of representations were received telling us what our communities and other stakeholders thought of the plan. We need to report these comments and their implications for the plan back to Cabinet in October.

A copy of all of the documentation and supporting documents will be available to view five working days before Cabinet which is on the 10th October 2017.

Further updates will be placed onto the WCC web pages as and when they become available.

<https://www.warwickshire.gov.uk/mdf>

Anyone from our villages interested in speaking at the cabinet meeting are asked to email Allan Murdoch Allan@murdochonline.co.uk as a matter of urgency so that we may plan a co-ordinated approach from the community and aim to speak on key areas of objection and concern before Cabinet members vote on the new proposals.
